

CMSI 4072 Project Status Document  
Spring 2024

---

Name: Jayden Craig

Project: MetroTune

Week: 13

---

Accomplishments:

- Worked on further UI tweaking
- Added tune up / tune down to tuner
- Adjusted overall page layout
- Worked on ear training stretch goals
- Added a couple more tunings

Plans:

- Possibly add more alternate tunings
- Work on the functionality of pitch tests
  - Randomize notes
  - Pair randomized note to correct interval
  - Check interval selection is correct before rerandomizing

Concerns:

- Ran into problems trying to get the pitch tests to function properly so a bit behind on plans for the stretch goals
